RISK MANAGEMENT

Keeping Safe This Summer—Tips for Reducing Risk

Summer is well and truly here, and with this comes the need for businesses to take extra precautions to protect their workforce against extreme heat, outdoor working and fire risk. In this special summer bulletin, the Gallagher Risk Management team have compiled a number of helpful articles that could help you mitigate common summer risks and ensure business continuity.

Managing extreme heat in the workplace

As temperatures continue to rise across the UK¹, many organisations are struggling to maintain a reasonable workplace temperature for their employees. In the following article, we provide some practical tips to help you and your employees manage heat-related risks within the workplace.

Understanding and tackling risks in outdoor work environments

As the number of workplace injuries continues to climb, outdoor workers face heightened vulnerability to injuries or illnesses, especially during the summer months². In the forthcoming article, we discuss the common hazards that outdoor workers encounter and suggest proactive measures that businesses can adopt to ensure their safety.

Reducing fire risk: Best practices for workplace safety

Increasing temperatures and hotter summers have contributed to a notable increase in fire incidents throughout the United Kingdom, posing a threat to businesses, individuals, animals, and the environment³. Read this article to discover the typical causes of commercial fires and the essential measures you can implement to enhance fire safety and minimise the risk of fire.
